SD5 has two types of Discretionary Days available to all contract teachers**: Article G.5 Unpaid Discretionary Day** meaning you lose your daily rate of pay for each day you use this leave. This does have an impact on your pension down the road. **Article G.26 Paid Discretionary Day** meaning you get paid but pay the difference between your daily rate of pay and the cost of a TTOC (currently $550/day).

To find your daily rate of pay, take your monthly salary and divide by 20. So, if you are Cat 5, Step 9 then you make $102,971/200 = $514.86 per day.

EXAMPLE: So for G.5 you lose $514.86 per day and for G.26 you get paid $514.86 minus $550 for TTOC pay leaving you owing $35.14 pay per day for those days. These leaves can be combined or accessed in any order.
